## ARTIST STATEMENT

After mind surfing for years and attempting to search for an answer to which category or genre I fit in, I realized I don't, nor will I ever..

I take pride in being a modern day renaissance man. Some label me as an Illustrator or a Designer, some say I am a musician, Most just call me an artist; Though I appreciate all gestures, I am neither.

The gift I was given is too big to be confound by titles. I sketch, Paint, Rap, Sing, Sculpt, Build, Ideate, Dream, and make whatever I desire into reality. I was made in the image of my creator therefore I, being in his likeness, create. I am deeply grateful for every ability I have found myself able to do and take not one talent for granted.

Art is not what I do, It's who I am; And I humbly introduce myself as John Koldstitch "The Kreativ".
